

ARGENTINA TRIP - JOHN GALLO

I wanted to let you know that Bob, Barney and I just got back from our trip to Argentina. Our Esquel outfitters were wonderful - I can't recommend them more. We had a great time and caught lots of fish. Great spring creeks, several incredible rivers, lots of private waters, and fun estancia and lodge stays. We fished one spring creek and caught over 150 that day. The great thing about them is that we fished 9 days and fished a different river/lake each day...and stayed at three different lodgings. In addition, we also visited the Rio Manso Lodge and fished for three days. Very fine lodge on a wonderful lake. First class lodge without question.

John Gallo

Lots of flexibility in tailoring an itinerary to meet clients objectives.

Can include private access estancia for a great 3 or 4 day float trip – length depends on water levels.

Not a good program for non-fishing spouse – strong fishing program.

Can find three days of activities for some non-fishing spouses plus three or four day Baraloché tour.
