

ALASKA FLOAT TRIP - SCOTT HAGUE

Don,

The float trip with Ouzel in Alaska was absolutely fantastic. The variety of Salmon and Trout fishing was remarkable and each day on the river provided a wide variety of fishing options. The Salmon/Aniak rivers are great water and in our opinion was significantly more productive/interesting than our trip to the Lake region of Argentina last year. I am proud to boast a 27" Rainbow as being one of my personal highlights.

The folks at Ouzel were great. Branden was one of the best guides we have had and did a great job managing a single-boat float trip - his dedication to mousing was notable. I highly recommend him to future clients and certainly would go back to the same spot in the future (but might need to check New Zealand on the list next).

Thanks again for setting-up the trip, I look forward to getting back there in the future. We attached some preliminary pics and will send more as they are developed including some of the bigger fish and scenery.

Scott
