

TRIP REPORT - FERNIE: JESS ERICKSON

Don,

My boys and I had a great time. The whole trip fully met our expectations. That includes the fish, the guides, the weather and our accommodations. We had great guides and they taught us a lot. The fish weren't exactly hammering our flies, but we caught fish every day, including the days we fished on our own, and we caught some really big cutthroat.

Floating the Elk is great. And walking and wading Michel Creek and the Wigwam was good too. Beautiful streams!

Island Lake is a spectacular place. I could take my wife there. The food was good and so was the service.

Many thanks for all your help.
Jess Erickson
